Singapore, 10 May 2019

## Naval Group attends IMDEX 2019

**From 14<sup>th</sup> to 16<sup>th</sup> May 2019, Naval Group participates to the 12<sup>th</sup> edition of IMDEX in Singapore and will showcase its latest innovations on booth #K05.**

---

Naval Group is a naval systems provider and integrator, one of the few companies in the world with the ability to deliver complete warships with their combat systems and all the critical equipment necessary to engage naval power in a theatre of operations. It is involved at every stage in the product life cycle, from design to in-service support.

As a long-term partner of Singapore, Naval Group is willing to strengthen its cooperation with the local industry in order to enhance the city-state's sovereignty at sea and contribute to the protection of its strategic interests by delivering the best technologies, driven by innovation and R&D investments.

### Presenting distinctive solutions for naval defense

This new edition of IMDEX will be an opportunity for Naval Group to meet key-players on the Asia-Pacific market and showcase its unique expertise and its leading products.

Belharra® is Naval Group's answer to navies looking for a compact frigate to perform a large range of missions, stand-alone or within a task force, for high sea duration missions or for shallow water operation in congested and contested operational environment. Belharra® benefits from Naval Group centuries of experience ensuring unmatched stealth and outstanding detection capabilities. It features a robust platform, resilient systems and recoverability features that will enable it to retain operational capability following damage. This new frigate features high level capabilities in anti-air, anti-surface, anti-submarine, and asymmetric warfare domains as well as the access to deep strike capability.

The Mistral-class LHD is a multipurpose Power and Force Projection asset designed to command and achieve high intensity amphibious and special joint operations, as well as no-combatant assistance operations with the highest level of efficiency. Thanks to its customizable configuration and smart architecture, arrangement, and accommodation designed to optimize the flow management of capabilities, the Mistral-class LHD can provide large and comfortable arrangement for the accommodation of a high NATO standard medical capability. Naval Group also provides proven solution for the integration of helicopters and unmanned aerial vehicles (UAV) on-board naval platforms.

Benefiting from the French Navy legacy and proven by its strong credentials, Scorpène® is ideally suited for action and operational effectiveness. Scorpène® combines unique platform and

combat system skills to provide operational superiority and safety. Scorpène® is an ocean-going submarine also designed for shallow waters operations. Multipurpose, it fulfils the entire scope of missions such as Anti-Surface and Anti-Submarine Warfare, special operations and intelligence gathering.
