Naval Group signed a contract with ST Engineering Marine Ltd for the upgrade of the Formidable class frigates

On December 14 2023, ST Engineering announced that its subsidiary ST Engineering Marine Ltd has secured a contract with the Singapore Ministry of Defence for the mid-life upgrade of the Formidable-class frigates for the Republic of Singapore Navy. Naval Group, as ST Engineering sub-contractor, will be continuing the partnership the two companies have started in 2000 with the Formidable-class frigates construction programme.

Through this contract signed with ST Engineering Marine Ltd, Naval Group is proud to continue its cooperation with our partner, to serve the Singapore Navy.

Naval Group has a deep understanding of the Formidable frigates, as the Group has built the first vessel in the Formidable-class series on the Lorient shipyard in France. The other five were built locally by the ST Engineering shipyard, in accordance with the major transfer of technology agreement, a testimony of the strong partnership between the two companies. To achieve this project, Naval Group will work closely with Naval Group Far East, its subsidiary in Singapore who is already supporting the Singaporean Navy and ST Engineering in project management, maintenance and supply chain.
